

Long Walk 2010 assembly report:

The Grade 11's spent the last few days hiking in the breathtaking Outeniqua Mountains. The focus of the activity is to hike for 5 days, but the added challenges of carrying their provisions, facing the threat of baboons and snakes, and dealing with whatever Mother Nature throws at them makes for an interesting, yet valuable, learning experience. The majority of the group faced the challenge with a hugely positive attitude and this clearly aided those who found the adventure tough. A cold mountain stream in which to swim, a warm fire for evening comfort, and a hut to sleep in at night were certainly much appreciated. The satisfaction and enjoyment witnessed on the faces of the grade 11's on completion of the hike certainly indicated that this was a most rewarding and enjoyable experience. Thanks to all the staff who were involved in organising and taking part in the venture.
